

# Farmington Family Clinic

Farmington Family Clinic offers family medicine for all ages. As primary care providers, our clinic offers preventative care as well as care for acute and major illnesses such as diabetes, cardiac disease, gastric disease, thyroid disease and respiratory illnesses. We provide laboratory, x-ray and EKG services.

## About our Physicians

Jamal Abdin

Laura Hardin

Kimberly Chapman

## Hours

Farmington Family Clinic is open 7:30 a.m. - 4:30 p.m., Monday through Friday. We are closed on major holidays. If the clinic is to be closed, there will be signs posted.

## Inclement weather

In case of inclement weather please check local television stations and/or their websites for announcements regarding clinic closures. Farmington Family Clinic will follow the Farmington Public Schools closings. Patients should call the clinic before coming in during inclement weather.

## Appointments

We will make every effort to see you in a timely manner. Please call us at 479-267.1001 to schedule an appointment. We request you call to reschedule or cancel if you are unable to keep your appointment time.

## Financial Requirements

We accept most major insurances. Your insurance card will be requested at each visit. Copays, your portion of your remaining deductible, and/or co-insurance must be paid at each visit before services are rendered. We accept cash, checks and credit/debit cards (Visa, MasterCard and Discover)

## Emergencies

In case of an emergency, please go to Washington Regional Medical Center or to the nearest emergency room.

## Prescription Refills

Patients who take critical prescription medications are advised to adhere to the schedule of lab and office visits recommended by their doctor. Please bring your medications, or a list of them, to your office visit and ask your doctor to write refills for any medications you anticipate needing.

Patients who have been seen by the doctor at appropriate intervals may call for refills on some prescriptions (antibiotics excluded). You may call your pharmacy 2 - 3 days prior to running out of medication so the pharmacy can fax a refill request to the doctor, or you may call the clinic. Please give 48 hours notice for refill requests. Requests received after 2 p.m. will be processed within the next two business days. Refills are done on Monday, Tuesday, Wednesday and Thursday.

Patients who use a mail order pharmacy plan will need to pick up written prescriptions from the clinic and mail them to their providing pharmacy.

## Medical Records

A medical request signed by the patient is required to send or release records to anyone. If you are requesting a copy of your records, there will be an additional fee.
